

of South Florida, Inc.

High Performance | Tight Tolerances | Clean Cuts

CLN 6" Bender

Designed Specifically for the Sign Industry

Increases efficiency

Takes 1/3 less time to form a letter compared to doing it with an old fashion brake
Letters are automatically lined up so there is no need to draw square lines

Safe and convenient

The formed letter is kept away from your face and lays horizontally on the table
Retrun is clamped vertically to easily view the angle
And it is at a comfortable working height

Easy to operate

Line up the notch
Press the foot pedal to clamp the retrun
Bend to desired angle

Made for industrial use

Built to last with heavy-duty construction
Bends .032 to .063 aluminum
Life time technical support
One year warranty on parts and in house labor

Patent # 6,094,960
