

of South Florida, Inc.

High Performance | Tight Tolerances | Clean Cuts

The Table Top 6" Vertical Hand Bender

Increases efficiency

Takes 1/3 less time to form a letter compared to making them with an old style brake,
Letters are automatically lined up so there is no need to draw square lines.

Safe and convenient

The formed letter is kept away from your face and lays horizontally on the table
The Return is positioned vertically to easily view the angle
And it is at a comfortable working height

Easy to operate

Line up the notch and bend to the desired angle

Made for Industrial use

Built to last with heavy-duty construction
Bends .032 to .063
Life time technical support
One year warranty on parts and in house labor
